NivaFile synthetic scan benchmark

Example line 1: fabricated content for an owner-run product test.
Example line 2: fabricated content for an owner-run product test.
Example line 3: fabricated content for an owner-run product test.
Example line 4: fabricated content for an owner-run product test.
Example line 5: fabricated content for an owner-run product test.
Example line 6: fabricated content for an owner-run product test.
Example line 7: fabricated content for an owner-run product test.
Example line 8: fabricated content for an owner-run product test.
Example line 9: fabricated content for an owner-run product test.
Example line 10: fabricated content for an owner-run product test.
Example line 11: fabricated content for an owner-run product test.
Example line 12: fabricated content for an owner-run product test.
Example line 13: fabricated content for an owner-run product test.
Example line 14: fabricated content for an owner-run product test.
Example line 15: fabricated content for an owner-run product test.
Example line 16: fabricated content for an owner-run product test.
Example line 17: fabricated content for an owner-run product test.
Example line 18: fabricated content for an owner-run product test.
Example line 19: fabricated content for an owner-run product test.
Example line 20: fabricated content for an owner-run product test.
Example line 21: fabricated content for an owner-run product test.
Example line 22: fabricated content for an owner-run product test.
Example line 23: fabricated content for an owner-run product test.
Example line 24: fabricated content for an owner-run product test.
Example line 25: fabricated content for an owner-run product test.
Example line 26: fabricated content for an owner-run product test.
Example line 27: fabricated content for an owner-run product test.
Example line 28: fabricated content for an owner-run product test.
Example line 29: fabricated content for an owner-run product test.
Example line 30: fabricated content for an owner-run product test.
Example line 31: fabricated content for an owner-run product test.
Example line 32: fabricated content for an owner-run product test.
Example line 33: fabricated content for an owner-run product test.
Example line 34: fabricated content for an owner-run product test.
Example line 35: fabricated content for an owner-run product test.
Example line 36: fabricated content for an owner-run product test.
Example line 37: fabricated content for an owner-run product test.
Example line 38: fabricated content for an owner-run product test.
Example line 39: fabricated content for an owner-run product test.
Example line 40: fabricated content for an owner-run product test.
Example line 41: fabricated content for an owner-run product test.
Example line 42: fabricated content for an owner-run product test.
Example line 43: fabricated content for an owner-run product test.
Example line 44: fabricated content for an owner-run product test.
Example line 45: fabricated content for an owner-run product test.
